The purpose of chiropractic services is to promote natural health through the reduction of VSS or VSC. Since there are so many variables, it is difficult to predict the time schedule or efficiency of the chiropractic procedures. In most cases there is a more gradual but satisfactory response. Occasionally, the results are less than expected. Two or more similar conditions may respond differently to the same chiropractic care. Many medical failures find quick relief through chiropractic care. In turn, we must admit that conditions, which do not respond to chiropractic care, may come under control or be helped through medical science. The fact is that the science of chiropractic and medicine may never be so exact as to provide definite answers to all problems. Both have made great strides in alleviating pain and controlling diseases.

Authorization and Assignment

In consideration of your undertaking care for me, I agree to the following:

1. You are authorized to release any information that you deem appropriate concerning my physical condition to any insurance company, attorney or adjuster in order to process any claim for reimbursement of charges incurred.
2. I authorize the direct payment to you of any sum I owe or hereafter owe by my attorney out of the proceeds of any settlement of my case, and by any insurance company obligated to make payment to me or you, based in whole or in part upon the charges made for your services.
3. I understand that Saline Chiropractic has verified my benefits. Verification of benefits is not a guarantee of benefits. I agree that my insurance policy is a contractual agreement between the insurance company and myself. In the event that payment is not collected from insurance, I am responsible for whatever amount that is not collected. I may be billed up to one year for services due to the billing cycle. If I then refuse to make payment, all fees for the collection agency will be added to the balance.
